TCPN

(The Cooperative Purchasing Network)

Who is TCPN?

TCPN is a national governmental purchasing cooperative established in 1997, tasked with assisting public entities to increase efficiency and economy when procuring goods and services. Their contracts are available for use, and benefit, all entities that must comply with state procurement laws and regulations (public and private schools, colleges and universities, cities, counties, non-profits, and all governmental entities).

TCPN Contracts

The Cooperative Purchasing Network (TCPN) competitively bids and awards contracts for commonly purchased products and services. Their unique contracts cover Facilities, Food Service, Furniture, Office Supplies & Equipment, Security Systems, and Technology to name a few. As a national purchasing cooperative, TCPN leverages one of the largest pools of purchasing potential. Their contracts offer entities the purchasing power most are unable to command for themselves - small entities receive the same pricing as the largest buyers. Yet their national vendors deliver goods and services on a local level. A state contract or local co-op does not represent this same level of purchasing power.

Procedures and Processes

TCPN follows the purchasing procedures mandated by state procurement laws and regulations. They award contracts based on quality, proven performance, and most importantly pricing. Their procedures have been ISO 9001:2008 certified, and are independently audited twice yearly....because they know you might be audited too.

Their process includes:

- Issuing an RFP for a commodity or service
- RFP is advertised for four (4) weeks nationally
- Sealed responses are recorded and opened publicly
- Responses are tabulated and Vendors evaluated
- Contract is awarded to Vendor
- Awarded contract is ratified by Board of Directors

Advantages of TCPN

Utilizing a TCPN contract means members deal directly with the vendor using the TCPN contract as their own. The advantage to TCPN members is the leveraging of best pricing and delivery terms at no cost to them.
