Always classic, with an eye for the future

We love design—especially clean lines and eye-catching materials and finishes. Much of what we create draws inspiration from the best of Mid-Century design, but with all the functional components today’s workplaces demand. Because let’s face it—we’re more flexible, mobile, collaborative, and technology-dependent than ever. It only makes sense to design products that are ready for what’s next.

Mixing Harter designs with the range of products by its izzy+ sibling brands gives you ultimate flexibility for every type of space in your ever-changing workplace—from conference rooms and lounges to private offices and cafés. 3-2-1...Work!

3-2-1 spaces offer something for everyone.

- 3 Refresh:** Third Spaces
Places you don't have to be (but gravitate toward them, anyway).
- 2 Meet:** Second Spaces
Those rooms and nooks for gatherings with an agenda and time frame.
- 1 Focus:** First Spaces
Heads-down solo workspaces, but with features that welcome collaboration.
